

MACHINE DISH – GLASS WASHING CONCENTRATE

Formulated for use through Automatic Dispensing Equipment in dishwashing and glass washing machines.

FOUR WAYS MORE EFFECTIVE

Fast efficient cleaning.
Sustained power.
Thorough rinsing.
Economic usage.

Silquest is

EFFECTIVE Contains specially developed wetting agents and penetrants to effectively emulsify a wide range of contaminations.

NON FOAMING Controlled foaming allows maximum cleaning effectiveness.

FREE RINSING Complete free rinsing leaves surface bright and clean without streaking. Under most normal circumstances, rinsing aids are unnecessary.

PREVENTS SCALE BUILD UP - Special additives condition hard water and actually prevent scale build up.

DIRECTIONS FOR USE:

SILQUEST is designed to be used through HAMMERSLEY'S electronic detergent feeder. This equipment ensures automatic, trouble free, economical dispensing of product.

NOTE: Hammersley's Automatic Detergent Feeders will be tested and adjusted on installation. Consult your Hammersley Representative regarding automatic detergent feeders. SILQUEST performs efficiently in machines fitted with automatic chemical injection systems.

Pre-mix SILQUEST with 6 parts water before adding to the reservoir.
